JIMMY ARMSTRONG  
HAS BEEN USING VASS  
WADERS FOR YEARS

## HARDWARE WADING

## KINGS OF WADING

Whilst it may only be in recent times that you've seen loads of shots of anglers wearing yellow-strapped waders with the name 'Vass' woven into them, the brand has actually been around for the pasted four decades, and as you'll see, there's a good reason why their waders are worn by the pros...

**ADVANCED WATERPROOF** clothing and wader specialists, Vass, have been around for the last 40 years, but it's only in recent times that they've really come onto the masses radars thanks to the likes of Darrell Peck, Jimmy Armstrong and Alan Blair all posing for cover shots whilst wearing the brand's signature yellow-strapped waders.

Specialising in honest, hardwearing waterproof attire, Vass's most popular waders with carp anglers are these (the ones all the chaps on this page are wearing): the 700E Nova, which for 2015 boasts the addition of a new reinforced 'Vass Boot'. Said boot has a wider calf and foot fitting for (a) more comfort and (b) to allow you to slip into them with much more ease. These boots also

have tougher and chunkier soles for increased comfort, reliability and grip, and a larger heel kicker to help when taking the waders off.

The 700E Nova is produced from the tried and tested high-quality Vass-Tex 700 smooth PVC outer with a soft polyester reverse which has a slight stretch for comfort but also to act as a shock absorber on the seams. And talking of those, these have Quad-Welded seams and elasticated and box-stitched brace loops to ensure extreme longevity and zero water leakage.

If you want the very best in features and craftsmanship, then make sure you check out this surprisingly affordable option – there's a good reason why all these guys opt for these over the

other brands you know.
